

Zen Studios is Bringing Pinball FX2 to Windows 10

The latest version of Zen's hit pinball platform will support table transfers from Xbox One.

March 4, 2015 – San Francisco, CA – Zen Studios, maker of hit digital titles like Zen Pinball 2 and CastleStorm, is pleased to reveal that its beloved digital pinball platform, Pinball FX2, will be available as a launch title for Windows 10. Collaborating with Microsoft via the ID@Xbox self-publishing program, Zen worked to ensure the title will support cross-buy on Windows 10 and Xbox One devices. With cross-buy, players will be able purchase a Pinball FX2 table once on either Windows 10 enabled devices or on Xbox One consoles, and play it on the other platform at no additional charge.

“Zen Studios has a history of collaboration with Microsoft, so being able to work with them on this launch title for Windows 10 is a fantastic opportunity,” said Mel Kirk, VP of Publishing at Zen Studios. “We’ve loved what we’ve seen so far out of the operating system and being able to allow our Xbox One fans to import their tables to Windows 10 is something that gets us excited! We love providing extra value to players, and supporting their purchases across both Xbox One and Windows 10 is as good a value as you can get.”

Pinball FX2 for Windows 10 will be playable at the Xbox Booth, Moscone South Hall, #802 at this year’s Game Developers Conference from March 2 – 5, 2015 at the Moscone Convention Center in San Francisco. More information will be available soon.

To set up an appointment to see Pinball FX2 for Windows 10 at GDC, please reach out to Steven Hopper (steven@zenstudios.com), and for more information on Zen Studios’ library of games, please visit blog.zenstudios.com.

About Zen Studios
