San Francisco, CA – December 2, 2019 – Zen Studios presents a surprise holiday treat with the addition of three legendary classic Williams and Bally pinball tables with *Williams™ Pinball: Volume 5* featuring *Tales of the Arabian Nights™*, *Cirque Voltaire™* and *No Good Gofers™*.

This *Pinball FX3* table-trio arrives on Tuesday, December 10 for PlayStation 4, Xbox One, Nintendo Switch, Windows 10 and Steam. Mobile users can play through the *Williams Pinball* app for iOS and Google Play.

Experience the greatest story the world has ever known in *Tales of the Arabian Nights™* as players fight to save the Sultan's only daughter imprisoned by an evil Genie. Explore the majestic city of wonders, full of flying carpets, caves of gold and a trapped Genie waiting for someone to brush the dirt off his golden lamp.

Unlike any circus you've ever seen, *Cirque Voltaire™* will dazzle and delight players with jugglers, acrobats, sideshows and brilliant colors. Battle the crazed ringmaster as he pops up to capture your ball, hit the oversized ball in the Menagerie, and fire the cannon for Cirque Luck on the back-glass in this high voltage, high stakes, action-packed table.

In *No Good Gofers™*, it's man vs. gofer in a knock-down, drag-out, winner-takes-all game of golf! Try to shoot nine holes while you battle the pesky gofers Buzz and Bud as they do their

best to ruin your game. Players can get back at the cheeky varmints by hitting them with their pinball as they pop up to critique your golf swing.

These Williams tables will be available as both classic simulations and re-mastered versions, transforming them into modern-day pinball experiences with enhanced features at the toggle of a button. *Williams™ Pinball: Volume 5* also includes Zen's flipper physics system which further perfects gameplay.
